New Moon Café Relocates to JB White's Building

Rialto Capital Management, LLC and Rex Property & Land, LLC are pleased to announce the relocation of New Moon Café to the JB White's Building located at 936 Broad Street. The Café will compliment the soon to be completed 51-residential condominium project which plans to begin sales in spring of 2012.

Owner Christine Allewelt cites many reasons for the relocation including a much needed larger space, gated patio, mezzanine for private events and a location convenient to the new TEE Center.

Paul King, owner of Rex Property & Land, says "New Moon Café will add a much needed vitality to the multi-use residential project. The Cafe is open 7-days a week and this new energy will help attract potential condominium buyers and additional retail as well."

New Moon plans to open their new location in Mid-May and provide exclusive benefits to JB White's Building residents, including a travel mug with unlimited \$1 refills, a 25 percent discount on all retail items, a membership to Augusta Locally Grown, and a home-meal replacement service.

Margaret Woodard, executive director of the DDA says, "We congratulate Chris on her successful and growing downtown restaurant. She entered our market six short years ago and her need for larger space speaks volumes to her business savvy."
